## *Characterization and properties*

Percolation effects in semiconductor $(\text{Bi}_{1-x}\text{Sb}_x)_2\text{Te}_3$ solid solutions at small Bi concentration <i>E.I.Rogacheva, K.V.Martynova, O.N.Nashchekina, Yu.V.Men'shov</i> .....	149
Morphological investigations of solid solutions $(\text{GaAs})_{1-x}(\text{ZnSe})_x$ doped with <Sb> <i>A.Sh.Razzokov</i> .....	156
Organo- and acid-modified laponites in lyotropic and thermotropic liquid crystals <i>N.O.Kasian, S.S.Minenko, O.M.Samoilov, L.N.Lisetski</i> .....	163
Structure, optical properties and photocatalytic activity of undoped, $\text{Nd}_2\text{O}_3$ -doped ZnO nanocomposites <i>O.V.Chudinovych, D.V.Myroniuk, L.A.Myroniuk, O.V.Shyrovkov, I.M.Danylenko</i> .....	171
Investigation of the effect of processing parameters on the spectroscopic properties of ZnSe NCs for hot-pressed ceramics of the Cleartran and Multispectral classes <i>Ye.G.Plakhtii, D.B.Hlushkova, V.M.Volchuk, V.V.Slavnyi, S.V.Demchenko, V.A.Saenko</i> .....	178
Features of the apatite-like layer formation on the surface of bioactive glass-ceramic materials <i>in vivo</i> <i>Oksana Savvova, Oleksii Fesenko, Olena Babich, Hennadii Voronov, Yuliia Smyrnova</i> .....	187
Interaction of composite ceramics based on zirconium diboride with high temperature alloys based on iron and nickel <i>G.Zhunkovskii, O.Grigoriev, D.Vedel</i> .....	197
Wear-resistant electric spark Colmonoy-WC coatings with high tungsten carbide content <i>V.G.Khristov, V.E.Sheludko, M.A.Vasilkovskaya</i> .....	206
Effect of heating temperature and holding time on microstructure and mechanical properties of quenched GCr15 bearing steel <i>Guiyan Ye, Yujun Li</i> .....	212
Research on thiazole corrosion inhibitor with lubricating properties <i>Zhi-wei An, Qiang Zhou, Qian Wang</i> .....	217
Study of stress-strain dependence of polystyrene-modified concrete under axial compression <i>Zhouping Yu, Jiahang Cai, Weijun Yang</i> .....	224
Application of binders for ecological pile foundations made of concrete <i>Deyang Chen, Zhe Wang, Fucheng Yu, Xinying Ai</i> .....	235

**Modeling and simulation**

MHD ternary hybrid nanofluid flow over a porous stretching sheet with various effects of Boussinesq and Rosseland approximations  
*M.I. Kopp, V.V. Yanovsky* ..... 243

Probability of forming a through conductive inclusion for the case of large-scale cylindrical inserts with their uniform distribution over the layer height and over the sample height  
*R.Ye.Brodskii* ..... 255

Approximate computations of linear and nonlinear polarizabilities for conjugated systems within a configuration interaction approach  
*A.V.Luzanov* ..... 268

Fractal modeling the mechanical properties of the metal surface after ion-plasma chrome plating  
*D.B.Hlushkova, V.M.Volchuk, P.M.Polyansky, V.A.Saenko, A.A.Efimenko* ..... 275

**Technology**

Growth of Fe-BTC particles beneath stearic acid Langmuir monolayers and research on its adsorption of methyl orange  
*Yuan-Sheng Ding, Fei Lu* ..... 282

**Methods**

The use of neutron reflectometry methods for the study of nanometer-scale electrochemical systems: a review  
*Ye.Kosiachkin* ..... 290

Accounting for effective specularity in the DETECT2000 program when determining light collection coefficients using NaI(Tl) and BGO scintillators as an example  
*V.A.Tarasov, L.I.Mitcay, O.V.Zelenskaya, B.V.Grynyov, N.R.Gurdzhian, L.L.Vashchenko* ..... 295

Liquid crystal sensors for detection of volatile organic compounds: comparative effects of vapor absorption and temperature on the phase state of the sensor material  
*I.A.Gvozдовskyy, Y.M.Kachurak, P.V.Vashchenko, I.A.Kravchenko, Z.M.Mykytyuk* ..... 303

Comparison of sorption properties of adsorbents with expandable and thermally expanded graphite and bentonite with respect to sodium and cadmium (II) ions  
*Solmaz Aliyeva* ..... 309

Abbreviations in crystals name and crystal growth technique  
*L.Lytvynov* ..... 313
